

PATRA™

Patra Academy

Career Development Program

The next generation of insurance experts.

Patra Academy is Patra's response to the insurance industry's labor challenges, providing a pipeline of talented, trained and licensed staff to support insurance organizations across the country. Patra's unique work-from-home model and job portability makes it possible for Patra staff to work from virtually anywhere, fitting the lifestyles of younger generations and families with unique circumstances.

Patra has placed Patra Academy locations near active duty military bases, allowing the company to match portable career opportunities with the unique needs of military spouses and veterans to create a win-win career development program. Patra Academy employees will emerge from the program with an insurance license, experience in insurance processing and a head-start on an insurance career. Developed as a way for Patra to meet staffing needs, it has become a corporate initiative and a "thank you" to those giving service to our country.

Paid Training

Patra Academies are currently located in Clarksville, TN, and El Dorado Hills, CA with more scheduled.

Licensing

Patra assists with the preparation and requirements to complete their insurance license.

Portability

Upon completion of training and licensing, Patra employees have the ability to work anywhere they relocate.

Hiring the Very Best

The Patra Academy program provides military spouses, veterans and individuals who are new to the insurance industry with a dynamic and professional career working for an innovative and rapidly growing company.

- Patra's hiring strategy allows us to partner with career development programs on military bases to identify and recruit top talent.
- Patra Academy employees participate in a 12-month paid training program to earn their insurance license and learn the skills necessary to enjoy a long term career at Patra. After training, Patra employees can take their career with them to wherever their family is relocated.
- Our Patra Academy program provides military spouses, veterans and other individuals who are new to the insurance industry, with an exciting career to call their own.
